AGCM Courses Flow Chart
(Revised October 2013)

Please Note:
- Students who do not have AGCM as their first major must get a permit to enroll in any AGCM course; students should do this just prior to their eligibility date to ensure a seat is available.
- When a student begins the program, it will take a minimum of four semesters to complete the requirements.
- Students must earn a C or better in all prerequisite courses to enroll in the next course in the sequence.
- Either AGCM 3233 or 4233 will fulfill the photography requirement.
